Interim Management Report of Fund Performance

FOR THE SIX-MONTH PERIOD ENDED SEPTEMBER 30, 2018

CAUTION REGARDING FORWARD-LOOKING STATEMENTS

This report may contain forward-looking statements about the Fund, including its strategy, expected performance and condition. Forward-looking statements include statements that are predictive in nature, that depend upon or refer to future events or conditions, or that include words such as “expects”, “anticipates”, “intends”, “plans”, “believes”, “estimates” or negative versions thereof and similar expressions.

In addition, any statement that may be made concerning future performance, strategies or prospects, and possible future Fund action, is also a forward-looking statement. Forward-looking statements are based on current expectations and projections about future events and are inherently subject to, among other things, risks, uncertainties and assumptions about the Fund and economic factors.

Forward-looking statements are not guarantees of future performance, and actual events and results could differ materially from those expressed or implied in any forward-looking statements made by the Fund. Any number of important factors could contribute to these digressions, including, but not limited to, general economic, political and market factors in North America and internationally, interest and foreign exchange rates, global equity and capital markets, business competition, technological change, changes in government regulations, unexpected judicial or regulatory proceedings, and catastrophic events.

We stress that the above mentioned list of important factors is not exhaustive. We encourage you to consider these and other factors carefully before making any investment decisions and we urge you to avoid placing undue reliance on forward-looking statements. Further, you should be aware of the fact that the Fund has no specific intention of updating any forward-looking statements whether as a result of new information, future events or otherwise, prior to the release of the next Management Report of Fund Performance.

CAUTION REGARDING FUTURE PERFORMANCE

Sales commissions, trailing commissions, management fees and expenses all may be associated with mutual fund investments. Please read the Fund's offering documents before investing. The indicated rates of return are the historical annual compounded total returns including changes in security value and reinvestment of all dividends (except for fee rebates) and do not take into account sales, redemption, distribution or optional charges, advisory fees payable directly by securityholders in certain series, or income taxes payable by any investor that would have reduced returns. Mutual funds are not guaranteed. Their values change frequently and past performance may not be repeated.

Investors Group Corporate Class Inc. has separate classes of securities and separate series of each class. Each class of securities represents a separate investment fund which has a separate portfolio of investments. The following report is for the above-named fund, which is one such class of Investors Group Corporate Class Inc.

This interim Management Report of Fund Performance contains financial highlights, but does not contain the complete interim financial report or audited annual financial statements of the investment fund. If the interim financial report of your investment fund did not accompany the mailing of this report, you may receive a copy of it or the audited annual financial statements, or annual Management Report of Fund Performance, at your request, and at no cost, by calling 1-888-746-6344 (1-800-661-4578 if you live in Québec) or by writing to us at 447 Portage Avenue, Winnipeg, Manitoba, R3B 3H5 (2001, boulevard Robert-Bourassa, bureau 2000, Montréal (Québec), H3A 2A6 if you live in Québec), or by visiting our website at www.investorsgroup.com or SEDAR at www.sedar.com.

Securityholders may also use one of these methods to request a copy of the investment fund's proxy voting policies and procedures, proxy voting disclosure record, or quarterly portfolio disclosure.

Every effort has been made to ensure that the information contained in this Report is accurate as of September 30, 2018 (except when stated otherwise), however, the Fund cannot guarantee the accuracy or the completeness of this material. Please refer to the Fund's Prospectus and audited annual financial statements for more information.

References to “Consultant” or “Consultants” mean “Representative” or “Representatives” in Québec.

For current net asset values per security for the Fund and for more recent information on general market events, please visit our website at www.investorsgroup.com.

Management Discussion of Fund Performance

This management discussion of Fund performance presents views of the portfolio management team about the significant factors and developments during the past six months that have affected the Fund's performance and outlook since March 31, 2018, the Fund's most recent fiscal year-end. This report should be read in conjunction with the annual Management Report of Fund Performance for the year ended March 31, 2018.

Please read the *Caution Regarding Forward-looking Statements* located on the first page of this document.

Results of Operations

CHANGES IN NET ASSETS

The Fund's net assets decreased by 4.5% during the period to \$53.5 million. This change was comprised primarily of a loss from operations of \$1.6 million and a decrease of \$0.9 million due to net securityholder activity.

FEES AND EXPENSES

The management expense ratios (MERs) for all series are generally similar to the MERs for the 12-month period ended March 31, 2018. Total expenses paid vary period to period mainly as a result of changes in average assets in each series. Average net assets of the Fund for the period were \$56.1 million, an increase of 7.4% compared to the period ended September 30, 2017.

INVESTMENT PERFORMANCE

In accordance with National Instrument 81-106, the following comparison to a broad-based index has been included to help you understand the Fund's performance relative to the general performance of the markets. However, the portfolio management team cautions that the Fund's mandate may be different from the index shown. Also, it is important to note that investors cannot invest in an index. Indirect investments in an index are available; however, there are fees and transaction costs and other variables that will impact returns when investing in these products. Index returns included in the comparison below do not reflect these costs and variables. In addition, unlike the index, this Fund may be subject to valuation adjustments as outlined in the Fund's valuation policies as it relates to non-North American equities held either directly or indirectly by the Fund. A fair value adjustment can either positively or negatively impact the Fund's rate of return.

For the returns of all series and for longer-term performance of the Fund, see the *Past Performance* section of this report. Performance will vary by series primarily because fees and expenses may differ between series, or because securities of a series were not issued and outstanding for the entire reporting period. See *Series Information* for the annual expense rates for each series.

For the six-month period ended September 30, 2018, the Series B securities returned -3.3% (after deducting fees and expenses paid by the Fund). In comparison, the MSCI Europe Index Total Return (Net) \$ CAD returned -0.2%.

European equities posted a slightly negative return for Canadian investors over the period as currency movements added to pressures from political worries and slowing economic growth. Although most major European economies continued to grow, the pace of expansion slowed. Stocks performed relatively well in the second quarter of 2018, after the European Central Bank committed to not raising interest rates until at least the end of the summer of 2019. Growing trade concerns and political developments in Italy pressured equities in the

third quarter. Worries about the new Italian government's handling of European Union budget constraints, as well as fears of contagion from Turkey's currency crisis, put pressure on European bank stocks. Equities in Britain struggled to a slight gain in Canadian dollar terms as fears of a disorderly Brexit grew.

Stock selection in the materials and health care sectors detracted from relative performance. From a country perspective, stock selection in Germany and the U.K. detracted from relative performance, while investment decisions in Spain contributed positively to relative performance.

Recent Developments

(BASED ON INFORMATION AS AT OCTOBER 21, 2018)

The Fund reduced its exposure to the financials sector, due largely to concerns about the potential negative impact of a flattening yield curve on the banks sector's profitability. Over the past six months, the Fund also decreased exposure to the consumer discretionary and the materials sector, and increased exposure to the health care, industrials, telecommunication services and information technology sectors. The Fund increased its exposure to the U.K., France, Norway and Switzerland, and reduced its exposure to Germany, Belgium, Italy and the Netherlands. Given the outperformance of some selected cyclical sectors and their higher valuations now, as well as the likelihood of weaker economic momentum over the next 12 months, the portfolio management team is likely to cut exposure to some of these sectors over the next few months.

Other Developments

CHANGES IN THE INVESTORS GROUP FUNDS INDEPENDENT REVIEW COMMITTEE

Recently, Peggy Dowdall-Logie and Louis-Daniel Gauvin replaced Jean Lamarre and Robert Tessier as members of the Investors Group Funds Independent Review Committee and Russell Goodman was appointed Chair.

Related Party Transactions

I.G. Investment Management, Ltd. is the Manager and I.G. International Management Limited is the Portfolio Advisor of the Fund. The Fund is offered through the Consultants of Investors Group Financial Services Inc. and Investors Group Securities Inc., together referred to as the Distributors. The Manager, Portfolio Advisor and Distributors are, indirectly, wholly owned subsidiaries of IGM Financial Inc.

The Fund paid a management fee to the Manager and Portfolio Advisor for management and portfolio advisory services (see *Management Fees*).

The Fund also paid the Manager an administration fee and in exchange the Manager paid the operating costs and expenses of the Fund, except for certain specified costs.

The Fund paid the Distributors a service fee as compensation for providing or arranging for the provision of services to the Fund, including the issue or allotment of securities.

See *Series Information* for the annual rates paid by each series (as a percent of average net assets) for these fees.

Securityholders in Series U also pay an advisory fee directly to Investors Group. This fee is not included in the Fund's expenses.

Management Fees

The Fund pays a management fee, and this fee, paid by each series, is calculated as a percentage of the net asset value of the series at the close of each business day (see *Series Information* for rates payable by each series). Generally, management fees pay the costs incurred to provide investment advisory and management services, as well as distribution-related services provided by the Distributors.

However, in the case of Series U, securityholders pay the Distributor an advisory fee (separate from the management fee) directly. Therefore, the management fee in that series is used for investment advisory and management services only.

For all other retail series (i.e. which excludes Series F, P and S, if issued), approximately 67% of management fees paid during the period was used for investment advisory and management services, and approximately 33% related to distribution-related services. This may vary by series.

Approximately 74% of the total fees paid by the Fund for the period related to services provided by the Manager and Portfolio Advisor, and approximately 26% related to services provided by the Distributors.

Summary of Investment Portfolio

AT SEPTEMBER 30, 2018

The largest positions of the Fund (up to 25) at the end of the period, and the major asset classes in which the Fund was invested, are indicated below. This summary of investment portfolio may change due to ongoing portfolio transactions. The Fund's summary of investment portfolio will be updated as at the end of the next quarter. Please see the front page for information about how it can be obtained.

Series Information

AT SEPTEMBER 30, 2018

Series	Inception date	Management fee (%)	Service fee (%)	Administration fee (%)
Series A	n/a	1.95	0.30	0.23
Series B	n/a	1.95	0.30	0.23
Series Josc	07/13/2012	1.70	0.30	0.23
Series Jnl	07/13/2012	1.70	0.30	0.23
Series U	07/12/2013	0.85	-	0.23

The fee rates in the table above are rounded to two decimals.

Inception dates of the series are shown if within 10½ years.

Past Performance

It is important to remember that past performance doesn't necessarily indicate future performance. The returns presented below:

- assume that all dividends are reinvested into the Fund;
- do not include sales charges, income taxes, optional expenses or advisory fees payable directly by securityholders in certain series, that reduce returns;
- show performance based on Canadian dollar returns; and
- show performance for the six-month period ended September 30, 2018 and for each of the past 10 financial years, or since the series started.

Financial years are as follows:

- 2009 – six months ended March 31
- 2010 to 2018 – 12 months ended March 31

Inception dates of the series within these periods are shown in *Series Information*.

Performance during these periods may have been impacted by the following events:

- Effective July 1, 2010, the administration fees for Series A and B decreased by 0.02% to 0.23%.
- Effective June 30, 2012, the annual management fee rate for Series A and B decreased by 0.05% to 1.95%.
- Effective June 30, 2012, the annual service fee rate for Series B decreased by 0.05% to 0.40%.
- Effective January 1, 2017, the annual management fee rate for Series U decreased by 0.10% to 0.85%.
- Effective January 1, 2017, the annual service fee rate for Series B and JNL decreased by 0.10% to 0.30%.

Year-by-Year Returns

These bar charts show how much an investment in securities made on the first day of each financial year would have increased or decreased by the end of the respective period. For the first year of a series, the percentage shown will be the actual return of the series from its inception date. The charts illustrate how the Fund's performance has changed over time.

¹ These calculations are prescribed by securities regulations and are not intended to be a reconciliation between opening and closing net assets per security. This information is derived from the Fund's audited annual financial statements and unaudited September 30, 2018 interim financial report presented in accordance with IFRS. Net asset values presented are consistent with the net asset values calculated in accordance with securities regulations for the purchase and redemption of the Fund's securities (pricing net asset values) and as such, pricing net asset values are not separately disclosed.

² Commissions and other portfolio transaction costs are included in total expenses.

³ Net asset value and dividends are based on the actual number of securities outstanding at the relevant time. The increase/decrease from operations is based on the weighted average number of securities outstanding over the financial period. In the period a series is established, the financial information is provided from the date of inception to the end of the period.

⁴ Dividends were paid in cash, reinvested in additional securities of the Fund, or both.

⁵ Management expense ratio (MER) is based on total expenses, excluding commissions and other portfolio transaction costs, income taxes, and withholding taxes, for the stated period and is expressed as an annualized percentage of daily average net assets during the period, except as noted. In the period a series is established, the MER is annualized from the date of inception to the end of the period. Where a Fund directly or indirectly via derivative contract invests in securities of an Underlying Fund, the MERs presented for the Fund include the portion of MERs of the Underlying Fund(s) attributable to this investment. Any income distributions received from exchange-traded funds (ETFs) managed by affiliates of the Manager, with the intention of offsetting fees paid within those ETFs but which are not considered to be duplicative fees under regulatory requirements, are treated as waived expenses for MER purposes. Certain expenses that are non-recurring and/or otherwise uncertain as to their future timing and amount have not been annualized.

⁶ The trading expense ratio (TER) represents total commissions and other portfolio transaction costs incurred as an annualized percentage of daily average net assets during the period. Where a Fund invests in securities of an Underlying Fund, the TERs presented for the Fund include the portion of TERs of the Underlying Fund(s) attributable to this investment.

⁷ The Fund's portfolio turnover rate indicates how actively the Fund's Portfolio Advisor manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the period. Generally, the higher a Fund's portfolio turnover rate in a period, the greater the trading costs payable by it in the period, and the greater the chance of an investor receiving taxable capital gains in the period. There is not necessarily a relationship between a high turnover rate and the performance of a Fund. Transactions incurred to realign the Fund's portfolio after a fund merger, if any, are excluded from the portfolio turnover rate.
